

Per WI State Statute 348.175, each year WI winter operations engineers determine which State, US and Interstate highways are solidly frozen and may bear additional weight without damage. A "Frozen Roads Declaration" is then issued by WisDOT. **NO PERMIT IS REQUIRED** to transport salt, road maintenance abrasives and logs cut cross-wise. **NOTE:** Wood chips and sawdust are not eligible.

The Declaration establishes the gross vehicle and axle weights.

As of 12:01 a.m. on 01/19/12 all State & US roads in Zones 1 are declared frozen.

See <http://www.dot.wisconsin.gov/travel/truck/weightrestrictions.htm> for the Zone Map.

Check the website tomorrow for the 2012 Frozen Road Declaration.
