

TESTIMONIALS: THE IMPORTANCE OF THE WMCA

“Our company recently joined the Wisconsin Motor Carriers Association and I have been very impressed with how active the association is on a number of issues that affects our company. It is very important to have the association providing the trucking perspective to the Legislature and the state agencies in Madison. Membership has been very beneficial for us and I would encourage other companies in Wisconsin to join the association and get involved.”

*Keli Backes,
B & K Transportation, Inc. / Transport National*

“Although I’ve been around the Wisconsin Motor Carriers Association (WMCA) for nearly three decades, I am now getting a direct inside view as a new Board Member on how our Association addresses issues and fights for our transportation industry benefit... It is impressive.”

*Rick Smith
Peterbilt Wisconsin*

Birchwood Transport Inc. has been an active member of the WMCA for over 25 years. Over the years the legislative agenda and actions taken by the WMCA have had a direct positive impact on our business. The educational programs put on by the WMCA Safety Council are also a tremendous resource when it comes to educating our staff as well as keeping us abreast of changing regulations. If you serious about your business and your industry... get involved!

*Mike Marquardt
Birchwood Transport Inc.*

“There is power in numbers! WMCA has had a major influence on legislation which affects how we run our businesses. I have seen how organized efforts in a recent state budget changed legislative direction in our favor. My lone voice would have not been heard state-wide.”

*Pauline Jaske
Fairway Transit*

“Thank you for providing these seminars. I have attended several over the years and have learned something from everyone. They are always set up very professionally, always with great accommodations and always at a price anyone could afford.”

*Diane M. Dahse, Safety Director
Diamond Transportation System, Inc.*
